

**The Oxshott Medical Practice Patients' Group invite
you to a talk by
Canine Partners
in the Large Hall, Oxshott Village Centre
on Thursday 4th October at 7:30 p.m.**

Canine Partners' assistance dogs are trained to meet the needs of individuals with even the most complex physical disabilities. They currently help adults aged 18 and over (both civilians and former service personnel) who have a physical disability or condition that affects their daily life and limits their independence.

Please come along and hear about their interesting and worthwhile work.

EVERYBODY WELCOME!
